

WCBN Membership Acceptance Framework

World Changers Business Network (WCBN) — a subsidiary of the World Changers Association (WCA)

This document summarises the framework for accepting businesses and professionals into WCBN membership.

1. Membership Tracks

WCBN admits two types of members, each with its own application, review path, and portal experience:

Track	Who it is for
Business owner	Members who own or co-own a registered business.
Professional	Members who practise a profession or trade without a registered business (employed, self-employed, consultants, practitioners).

The applicant chooses a track at the start of the application. The choice is locked once the application is submitted; an administrator can return an application if the wrong track was chosen.

2. Universal Eligibility (Both Tracks)

Every applicant, regardless of track, must satisfy the WCA identity requirements, which are **verified automatically** from the shared WCA database:

1. **Active WCA membership** — the applicant must be an active member of the World Changers Association.
2. **Active DCG participation** — the applicant must belong to an active Discipleship Cell Group (DCG).
3. **Covenant acceptance** — the applicant must confirm and accept the WCBN covenant.

No separate sign-up exists on the WCBN platform; members use their existing WCA credentials.

3. Application Requirements

3.1 Business Track

- Business name, sector, country and cities of operation
- Founding year and team size
- Business phone and email
- Registration references
- Description of what the business does
- Impact commitment (how the business serves people and reflects Kingdom values)
- Sustainable Development Goals (SDGs) the business advances

3.2 Professional Track

- Profession / title and field of practice
- Practice type (employed, self-employed, consultant, public service, ministry, student, other)
- Country and city
- Years of experience
- Qualifications and certifications
- Professional body / licence reference (optional)
- Work phone and email
- Description of the work they do
- How their work serves people and reflects Kingdom values
- Career and service goals
- SDGs their work advances
- Optional portfolio or LinkedIn link

Applications can be saved as drafts and completed progressively before submission.

4. Review & Validation Process

Each application moves through a staged review pipeline managed from the WCBN admin portal. Stages differ by track:

Stage	Business	Professional
Applied	✓	✓
WCA verified	✓	✓
Character review	✓	✓
Business review	✓	—
Professional practice review	—	✓
Impact & SDG review / Service & impact review	✓	✓

Stage	Business	Professional
Leadership review	✓	✓
Interview	✓	✓
Committee review	✓	✓
Decision	✓	✓
Inducted	✓	✓

Applicants can follow their progress through a review tracker in their member portal. While an application is being processed, the portal shows only the verification status, the review tracker, and a summary of the submitted application.

5. Scoring Criteria (Admin-Configurable)

All acceptance criteria are configurable by WCBN leadership from the admin portal — no code changes required:

- **Criteria per track** — each criterion is marked as applying to businesses, professionals, or both.
 - **Weights and scores** — each criterion carries a weight; reviewers score applications against them.
 - **Thresholds** — each track has its own *passing score* and *strong candidate score*.
 - **Versioning** — criteria are versioned; applications in flight keep the rules they were submitted under.
 - **Required documents, review stages and disqualification rules** are also admin-configurable.
-

6. Approval & Activation

- Approval sets the member's type (business or professional), which determines their portal experience.
 - Only **validated and activated** members see the full member portal (overview, contributions, impact, covenant, events, news, profile).
 - Business members manage a business listing; professional members manage a professional profile. Both are vetted and activated separately before appearing in the public directory.
 - The public catalog shows vetted, activated listings in two tabs — **Businesses** and **Professionals** — each with a public detail page.
-

7. Ongoing Membership Obligations

- **Contributions** — annual/monthly dues with declared payments and admin confirmation.
- **Impact reporting** — members maintain impact commitments and SDG reporting.
- **Covenant standing** — continued adherence to the WCBN covenant.
- **Periodic review** — membership standing is reviewed on a scheduled basis.

Prepared from the WCBN platform design and implementation, September 2026.
